

### **Paola Migliorini CV**

Assistant Professor in Agronomy and Plant Production System at the University of Gastronomic Science (Pollenzo, Italy), since 2009 (<https://www.unisg.it/en/docenti/paola-migliorini/>). She teaches Agroecology, Organic Agriculture, Sustainable agriculture and Agrobiodiversity courses at Bachelor and Master level.

Born in Florence, she graduated in Agricultural Science and Technology at the University of Florence (Italy) in 1998 (110 cum laude). In 2000 she received her Master's degree in 'Food Security' from Ministry of Foreign Affairs and in 2006 her PhD in at the University of Florence, under the supervision of Prof. Concetta Vazzana and prof. Miguel Altieri.

From 1998 to 2003 she was Technical Manager of the Tuscan Organic Producers Association, (CTPB) with activities of identification, formulation, management and evaluation of projects on organic farming at farm, regional, national and international level. From 2000 to 2003 she worked as Technical Inspector for the BIOS srl control and certification of organic agricultural production. From 1998 to 2000 she was researcher at the Overseas Agronomic Institute dealing with international cooperation and gender analysis. From 2001 to 2008 she was a research fellow at the Agronomy Department, University of Florence, Faculty of Agriculture, where she played the role of technical coordination for the Montepaldi Long Term Experiment and several others projects on the assessment of sustainability in organic farms, on fertility management and biodiversity in organic farming with particular reference to crop rotation and green manure.

She is vice president of IFOAM AgriBioMediterraneo (<http://www.ifoam.bio/en/regional-bodies/ifoam-agribiomediterraneo>), funding and board member of Agroecology Europe (<http://www.agroecology-europe.org/>).

She is author of 80 technical and scientific papers in international and national journals, monographs, book chapters and conference proceedings.

At the University of Gastronomic Sciences has participated in several interdisciplinary projects related to agricultural aspects of food at regional, national and international level ([https://www.researchgate.net/profile/Paola\\_Migliorini/contributions](https://www.researchgate.net/profile/Paola_Migliorini/contributions)).

### **Declaration of Intent for AEEU**

If elected in the new Agroecology Europe (AE) board, I will engage myself in:

- Promote agroecology as a model for sustainable food system in Europe
- Support the development of agroecological systems in the framework of participatory and holistic approaches bringing together farmers, scientists and other stakeholders;
- Strengthen the dialog and collaboration among Organic agriculture and Agroecology
- Help to clarify the agroecology definitions and approaches among different context
- Lobbying for policy measure to support Agroecology
- Develop research and research project in agroecology
- develop network of trainers and teachers in agroecology for exchange experience, develop course and curricula
- Facilitating the creation of Data base and Observatorio in Agroecology in Italian and EU context
