**Re: AAEU Board of Directors – Call for Candidates**

I would like to apply for the position of Board member.

I could provide my contribution to the Board especially by maintaining strategic links between Agroecology Europe and Agroecology in Latin America, Africa and Asia. I think that stronger and dedicated links would allow us to learn more actively from each other with mutual benefit.

I could also provide time to accompany the preparation of meetings and events and collaborate in promoting more active participation in Agroecology fora and events by those countries that are traditionally under represented.

I would also be happy to give my contribution to the development of strategic papers, and of course to any other policy activity of Agroecology Europe especially towards “contaminating” the PAC with Agroecology.

Last but not least I would be available to participate in all tasks and responsibilities of the Board because, as a retiree, I have more time now!

Yours sincerely

Caterina Batello
