Let's bring youth voices
together to transform
food systems !

On the occasion of the International Day for Biological Diversity, come join us to explore and discuss agroecology and how it's practiced around Europe during the Launch Webinar of the "Young Europeans's Manifesto for Agroecology".

Get a presentation of the Manifesto by the authors and inspiring actions led by the youth in the farming sector, before joining us in a roundtable discussion featuring the Slow Food Youth Network and the Global Biodiversity Youth Network (Europe)!

This webinar is an opportunity to get to know different youth collectives and to see their convergences taking shape for a more sustainable food future!
