DIGITALIZAION IN AGROECOLOGY. OVERVIEW

WHAT IS INNOVATION ?

Innovation inspired by agroecology and food sovereignty is aimed at the collective common good, and can be strengthened with the help of digitalisation.

IMPACT OF DIGITALISATION

Digitalization is not a neutral addition to agriculture, but benefits to the large-scale industrial agriculture, positioning small producers as an obstacle.

DATA GRABBING

Data is often seen as a commodity to be extracted from small producers and used for greater economic control.

KNOWLEGDE OWNERSHIP

Involves recognizing and respecting the diverse sources of knowledge, including traditional and local knowledge

AGROECOLOGY DIGITAL PLATFORM BILIM

Built for a community, **owned by** a community, developed with a community, to **share** knowledge **for** the community.

A **safe place** for small-scale farmers -specifically women and youth- to communicate and share knowledge

A **multi-language tool**, able to connect small-scale food producers organizations in over 10 countries.

An **open source** tool developed through the support of an international community of developers (Discourse)

**Schola
Campesina**

THANK YOU!
